

Federator - Fall - 1964

LOCAL MAN TAKES SPILL — A member of the Wisconsin Eagle Area Skiers, Gerry Chisler of Park Edwards, takes a bad spill in the men's jumping event. He suffered no serious injury, however, and went on to try another jump.

OVERALL MEN'S CHAMPION — Eric Barber of Escanaba, Wisconsin, in the boat, which carried him first place in men's jumping. He won the first place trophy in men's slalom.

BOAT RACE—The speediest and during most of the tournament is shown here as it goes after Bruce of Wisconsin is the winner women's slalom event. The boat is powered by two 25 hp. outboard motors.

SLALOM CHAMPION—Eric Barber of Escanaba, a member of the Wisconsin Eagle Skiers, skidded his canoe through heavy and

big additional waves to win first place in women's slalom competition.

WATER BIRTH BOY — Lester O'Brien, 1931 1st St. N., a member of the Eagle Skiers of Wisconsin Rapids, experiences his first water birth after watching her run through the women's slalom slalom event. She finished third in the event.

ACTIVITY AT THE MAIN — Members of Wisconsin Rapids, newly elected president of the Wisconsin Rapids Skiers, watches as Fred Gumbel, a slalom judge from Appleton, works when the male slalom race begins.

WISCONSIN RAPIDS DAILY TRIBUNE
Friday, August 28, 1964
Page 5

PLACE IN DOUBLE ACT—Placing third in mixed slalom competition with Don Rippe and Sandy Elliott, both were

top of the Wisconsin Eagle Skiers. The event concluded the weekly slalom program.

EXPERIENCED OBSERVER—A Wisconsin slalom slalom and judge from Wisconsin Rapids, watches the slalom event Sunday at Lake Wisconsin. One of three observers on scene. The other two are in the background.

WISCONSIN WATER SKI FEDERATION

A MESSAGE FROM YOUR PRESIDENT

Dear Skiers:

Since our birth the W. W. S. F. has come a long way. Anyone who takes the time and looks back on the skiing scene of four or five years ago knows what I mean. How many tournaments were there in 1959? How many judges? How many competitors? How many were able to run the slalom course on one ski at 25 mph? How many skiers did YOU know outside of your own club? W. W. S. F. means many things for many people. I will not attempt at this time to outline what we've done. I've given a few hints and you can go on from there.

Lets now look at the future. What is immediately ahead for us? How many times have you become acquainted with someone from another club but due to the hectic hours of tournament activity you really didn't have a chance to REALLY know the skier? How many times have you wanted to ask a question of the judges about the rules but they were too busy running the tournament? Have you ever wished that your club could bring in experts to pass on their secrets in tricks, jumping, slalom and judging? Do you feel that the sport of water skiing is too important to die every winter?

The Board of Directors of your W. W. S. F. hopes to rectify this situation. Your board has voted to hold a Mid-Winter Convention in Wisconsin Rapids sometime in February. Our program is still in the tentative stage but we hope to have something for everyone. We plan on having judges schools, clinics in all divisions, novices of the Nationals or U. S. vs. World or similar tournaments. Guest speakers to bring us up to date on such activities as A. W. S. A. and legislation, social hours, luncheons and banquets as well as planned entertainment will be an important part of this convention. In other words, something for everyone. Saturday afternoon, evening and all day Sunday of activities for YOU. We hope you will all plan on attending this first convention and if there is something particular that you would like on the program, drop me a line and we will see what we can do.

Sincerely,

Phi

MEETING OF THE BOARD OF DIRECTORS

The meeting was called to order by the president, Philip Franke, on October 3, 1964 in Wisconsin Rapids, Wisconsin.

Treasurer's report was read and approved.

Balance, August 1, 1964	\$	391.78
Receipts		<u>219.75</u>
	\$	611.53
Disbursements		<u>120.30</u>
Cash in bank, October 2, 1964	\$	<u>491.23</u>

OLD BUSINESS

Top skiers award was not presented but discussed as what to do. The directors thought it should be called a sportsmanship award to be given to outstanding performance by any person not just a skier. This could also pertain to an outsider. This was thoroughly discussed and then -----

Motion was made by Randy Beech and seconded by Sandy Gifford that we have an award given out when the occasion arises to anyone person who does more for the sport of water skiing, in the State of Wisconsin, in any given year.

CB units were again discussed to be purchased by the Federation. If these radios are purchased, any club that uses them must pay for any damages incurred. This was put in the hands of a committee of Jack Lukes, Norm Westerhold and Bob Meranda.

The Federation patches were again discussed as to who has any on hand. It was thought that Roger Magoon had received the patches from Jim Falkowsky for the Water Bugs. Rock Aqua Jays - none. Min-Aqua-Bats - none. Aqua Skiers - noc. The various directors are going to contact their clubs and let the secretary know who has any patches.

Article XIII was discussed and we arrived at the conclusion that no club was too poor that they could not afford that \$ 5.00 entry fee. The Federation needs money at any time regardless how much we have in the treasury now.

Motion was made by Jim Heferman, seconded by Randy Beech to reinstate Article XIII in its entirety and to include the \$ 5.00 entry fee.

NEW BUSINESS

Norm Westerhold inquired as to when the deadline for bids on the state tournament were. The deadline is February 1 with a board meeting on February 15. Don Nevin brought up that it would be better to hold the state tournament one week before the regionals as other states do, so that the councilman can be elected before the regionals. Don also mentioned that Wisconsin hands in higher scores at their tournament than any other state and that this would help people to receive their ratings and could probably qualify for the regionals. This was discussed.

Motion was made by Don Nevin, seconded by Jack Lukes that the state tournament be held one week before the regionals.

The Mid-Winter Convention was than discussed.

Motion was made by Jack Lukes, seconded by Jim Haferman that we hold the Mid-Winter Convention. It was decided that it would be held in Wisconsin Rapids around the first part of February. Also, who we were going to have for speakers, what we would do, and what kind of evening entertainment we would have. Try to plan something that we could have to sell to make money for the Federation. It was also suggested that there would be no alcoholic beverages. This was than put to a committee of Phil Franke, Beverly Sowatzke, Jack Lukes and Bob Meranda.

It was discussed that a typewriter be purchased for the secretary. Than if the secretary has one it can always be used by the president.

Motion was made by Randy Beech, seconded by Jack Lukes to purchase a typewriter for the secretary.

New letterheads have to be ordered and it was decided that Phil Franke take care of this.

Next meeting of the Board of Directors will be held December 5th, 4:00 P. M. at Don Nevin's residence, Menomonie, Wisconsin.

Motion was made by Jim Haferman, seconded by Norm Westerhold to adjourn the meeting.

Respectively submitted,

Beverly Sowatzke, Secretary

Attendance:

Sandy Gifford
Randy Beech
Bruce Nevin
Bob Meranda
Don Nevin
Mrs. Nevin
Sally Gifford
Judy Noffke
Lee Noffke
Norm Westerhold
Jack Lukes
Jim Haferman
Phil Franke
Beverly Sowatzke

MINUTES

Annual Meeting of the

Wisconsin Water Ski Federation

The meeting was called to order by president, Roger Magoon, on August 14, 1964 in Wisconsin Rapids, Wisconsin. The minutes were read by Secretary, Mary Samples, and approved.

Al Bubolz, regional councilman, gave a short talk on the American Water Ski Assn. It's divided into five regions in the United States, ours being one of twelve states in the Mid-West region. Each region talks out all our problems so that they know what we the skiers are doing and thinking. For the fourth year in a row the Mid-West region had received the award for taking in the most members in one year. Minnesota councilman, Jim Overmire received the National Fred Wiley Boat Driver's Award this year. Two years ago at the Nationals, Bill Clifford summarized water skiing in two words, "People and Fun." Round of applause for the good job that was done on the state tournament for the Aqua Skiers Inc. of Wisconsin Rapids.

Councilman, Fred Samples, complimented the skiers from Wisconsin and the Min-Aqua Bats for the outstanding job which was done at the Midwest Regionals. He summarized things that were accomplished this year as safety sleds, judges towers, judges schools and etc. He expressed deep thanks from the bottom of his heart. He also commended the good work on the way the state tournament was run and his thanks goes to Jack Lukes, Jim Haferman and Dick Albert and the members of the Aqua Skiers Inc. The Golden Carp Award was given to the sucker of the year. This was received by Rick Anderson, of Minnesota, and he states that it is a pleasure to work tournaments this year and has three more to go.

Presentation of awards:

Boys Slalom	3. Joe Ostrander	15 pts.
	2. Fred Geise	16 pts.
	1. Bruce Nevin	27 pts.
Girls Jumping	3. Cheryl Lake	109
	2. Karen Westerhold	138
	1. Rosann Kremel	139
Women Jumping	2. Sandy Gifford	123
	1. Susan Carlton	129
Boys Tricks	3. Larry Rushmeyer	814.7
	2. Bob Badreau	1065.6
	1. Bruce Nevin	1949.9
Sr. Mens Jumping	3. Bob Meranda	172
	2. Dr. Wm. Crowley	176
	1. Wally Braun	186.5

Dr. Womens Jumping	3. Alice Braun	113
	2. Mary Samples	131
	1. Geo Dee Fancher	137.5
Girls Tricks	3. Sally Gifford	114
	2. Rosann Kremel	132
	1. Ann Malaney	346
Boys Jumping	3. Cully Jacobi	187.5
	2. Don Joseph	212
	1. Bruce Nevin	221.5
Girls Slalom	3. Lynn White	3 (6)
	2. Cheryl Lake	4
	1. Valerie Vodicka	11
Mens Tricks	3. Lynn Novakofski	1230
	2. All Vodicka	1976.7
	1. Larry Joseph	2038.8
Boys Overall	Bruce Nevin	3000
Girls Overall	Rosann Kremel	1564

Aqua Skiers would like to express their thanks to Mrs. & Mrs. Romeo Ghiloni.

Drawing for water skies was made by Neil Palmer. Winners were Cheryl Albert, Tom Ghiloni, Mike LeBaron, Gail Daubenspeck, and Romeo Ghiloni.

Treasurer's report was read by Jack Lukes and approved.

OLD BUSINESS - NONE

NEW BUSINESS

Court procedure on August 9, 1964, P.F.C. hearing. The Water Bugs of Milwaukee, placed a ramp and they claimed it to be a hazard. We feel we can win this case. Al Bubolz has worked with the people of Amherst at Sunset Lake on the matter of restricting hours from 9-6. You should watch your local newspaper on this matter. There are other problems on water skiing we should pay attention to in our area. We should get to work and set up our laws or the state will. We should contact Fred Samples and committee for any information.

Tom Beech expresses his thanks on behalf of the Min-Aqua Bats for all the help at the regionals.

ELECTION OF OFFICERS: Councilman - Nomination by Al Bubolz for Don Nevin, seconded by Norm Westerhold. Nomination for Tom Brown by Tom Beech, seconded by Pete Springer. Tom Brown declined nomination due to the fact that he will be living out of the state. Motion was made that the secretary record an unanimous vote. Made by Al Bubolz, seconded by Phil Franke.

Nominations for president were called for. Phil Franke was nominated by Tom Brown, seconded by Fred Samples. Motion was made that the secretary record an unanimous

vote. Made by Al Bubolz, seconded by Nancy Bubolz.

Nominations for vice president were called for. Bob Mezanda nominated by Nancy Bubolz, seconded by Mary Samples. Motion was made that the secretary record an unanimous vote. Made by Tom Brown, seconded by Neil Weber.

Nominations for secretary were called for. Beverly Sowatzka nominated by Jack Lukes, seconded by Tom Beech. Motion was made that the secretary record an unanimous vote. Made by Jim Haferman, seconded by Nancy Bubolz.

Nominations for treasurer were called for. Jack Lukes nominated by LeRoy Joosten, seconded by Pete Springer. Karen Cash nominated by Lynn Novakofski, seconded by Keith Palmer. Nominations closed by Fred Samples, seconded Nancy Bubolz. Ballots were taken and counted and Jack Lukes was elected treasurer.

Award of past president plaques to Al Bubolz, Fred Samples and Roger Magoon.

The meeting was adjourned.

Respectively submitted,

Beverly Sowatzka, Acting Secretary

FROM YOUR REGIONAL CHAIRMAN

'Words of Wisdom'

Wisconsin is doing an outstanding job in the Midwest Region and the country as a whole for the organized sport of water skiing. Wisconsin had the greatest increase of new members over any of the other eleven states in the Midwest Region. This is due to the fine job the councilmen and the Wisconsin Water Ski Federation have been doing. Basically, the great increase in new members is due to the tournament activity in our state, which indicates that we must continue promoting the competitive aspect of our sport. In the meantime, however, we should not forget the family skier whose recreation should and must be promoted if we are to continue growing.

The American Water Ski Association, however, lost three affiliated clubs in Wisconsin this year. It is the clubs that are the basis for growth, as it is through these clubs that we are able to make contact with the individual skier and the family skier. For that reason, it may be a worthy project of the Wisconsin Water Ski Federation to set as its goal the return of these three clubs, as well as others, to the fold.

This year the American Water Ski Association is celebrating its 25th Anniversary. We can use this time to reflect on past accomplishments, but, more important, to begin a program of even greater progress. We can be proud that, during this year, the Midwest Region, for the third year in a row, received the Outstanding Region of the Year Award at the National Tournament in Webster, Massachusetts, for having more AWSA members than any of the other four regions in the United States. We in Wisconsin can take a large part of the credit for receiving this award again."

Cordially yours,

Allen Bubolz

Perhaps one of the biggest and certainly one of the most expensive problems in tournament skiing is the practice boat. To practice behind a totally inadequate rig is frustrating, time consuming and nerve racking. Just how do you go about approximating a 150 to 200 hp dual rig at home.

First, you have to make up your mind if you are going to enter all three events, and more important if you want to practice these events enough to win them.

Each event requires different characteristics from a home rig to match the tournament rig. Tricks are probably the easiest to start. Top speed only needs to be 15 to 18 mph. This is simple to achieve if you only ski tricks. Merely weight your boat down to throw a deep wake and use a power prop. This will keep the skier from changing your speed too often. Trick skiers have a way of getting nasty if you vary their speed very much.

Jumping again is fairly simple in all classes but mens. Again get your weight to the back of the boat (add weights if necessary) to approximate the big wake and prop your motor down low enough to keep the speed from varying when the skier makes his cut.

Now comes the problems. (Slalom and men's jumping). We have propped the motor down for tricks and 26 to 28 mph for jumping, now all of a sudden we need 34 to 36 mph. And lets face it, you're not going to win slalom events in most classes unless you practice enough to make the course at 34 mph. At a recent tournament four junior boys made perfect runs at 34 mph. You may find it necessary to change props to get the proper speeds on the smaller engines. A 100 hp motor needs a 17" pitch prop and 5200 rpm to do an honest 34 mph and hold it with a good slalom skier. And even then if your boat isn't weighted its very difficult to hold your speed and direction. Also a single engine rig must be weighted to approximate the wake of twin rig.

What does this all lead to? The most common mistake is buying too small a boat and motor. You may as well get a big boat as you're just going to have to weight down a small boat anyway. The problem with most big boats are the high sides. The wind blows you all over in the slalom course and on the jump runs. In the past years we have used a 14, 16, and a 17 ft. boat. The small motor is the other pitfall. We have had a 30, 45, 80 and now a 100 horse power.

Now after five years of fooling around I believe I have some sort of an answer. If you have an embryo tournament skier I believe a Hydrodyne or Crosby tournament hull with a single engine 75 hp or more is the right rig to start with. This hull has the weight, price is around \$ 1,000.00 to skiers, resale is good (to people of our kind) and the quality of both will take the rage of skiing. Also they are roomy for other family use. Then if your skier out grows the engine you can add the second one. I know in our case we could have had a twin rig for less than we have spent the other way. Of course, the fuel consumption will go up, but the practice you do will approximate tournament conditions exactly and will be far more beneficial. The other solution (if the cash is handy) is an inboard, but be careful. Many inboards have a wake way out of line.

Good luck on your choice of a practice boat and I hope whatever you chose your skier will get good enough to out ski the boat.

BITS OF NEWS AND GOSSIP

AQUA FOXES WATER SKI CLUB -----Appleton

The Aqua Foxes have just completed their second summer as an organized club. The water conditions are not the best but we are pleased to now have a piece of property that was made available for our use. There has been a vast improvement on it, with a dock, picnic table, and other things being built, and lots of labor put into making a nice beach.

The many activities of the summer included some of our skiers participating in the Novice Tourney at Wisconsin Rapids. Roger Karlin took first in all three events and Terry Muelder took third in tricks.

We also had some interest at the state tournament with several of our members skiing in their first sanctioned tourney. Next year we hope to have many more and perhaps take that first place team trophy away from Minocqua. SO ALL BEWARE---

One of the highlights of the season was our own inter-club tourney and corn roast. If you weren't thrown in the lake at least once during the day, someone must have slipped up. Jim Tuchscherer walked off with the prize trophy, to everyone's envy.

A few members have learned to barefoot - and if you have some time to spare, say - a day or so - Mick Gebheim will be glad to tell you all about his prowess.

AQUA SKIERS INC. -----Wisconsin Rapids

The Aqua Skiers Inc. started the season rolling in June by sponsoring a novice tournament for Wisconsin skiers. About thirty participants were initiated into tournament careers at this one day tournament.

On July 5th our club started weekly shows at Silvercryst Resort near Wautoma. These shows continued until the end of August. Our annual show at Riverside was held in July. Putting on this show were several too-pooped-to pop skiers and one terribly (TERRIBLY) hung over announcer.

The highlight of the season was sponsoring the Wisconsin State Water Ski Championships in August. The evening before the tournament was marred by the foot of Fred Samples projecting through our jump surface and Roger Magoon's attempted crossing of a swamp in his VW. Still we managed to overcome all hysteria which arose and ran off a very successful tournament.

Prepare for Riverside again. Next summer you may witness an open tournament in Wisconsin Rapids providing we can again obtain permission to use Lake Wazeecha.

SKIING SKETEERS -----Manitowish Waters

We are making plans for the 1965 Wisconsin State Barefoot Championships. One of our charter members is writing up the article for "The Water Skier" plus many pictures. So everyone watch for the article. If anybody would like a State Barefoot patch I still have a few. I will think of some more news and write to you.

MIN-AQUA-BATS -----Minocqua

The Min-Aqua Bats have completed their most successful season yet and all is calm again in Minocqua.

Running two major tournaments in one season had the entire club in a tailspin for sixty days. It is rumored that Tom Brown and Tom Beech had to be introduced to their parents on Labor Day.

Also giving outstanding performances at the Mid-West were two "show stoppers" Gil Kottner and Robin Coleman. Their spectacular jumping kept the crowd on the edge of their seats. Our court jester, Pat Dyar, sat this one out and retired for the season.

Jack Lukes took a weeks vacation and came up for the Mid-West. Jack was clearly out matched and had to call in reinforcements from the Aqua Skiers. Several car loads poured into town on Friday and by Sunday night Jim Hafeman was going to push his VW back to Rapids as he was in no condition to drive. All the Aqua Skiers renewed the battle on their home grounds the next weekend and came through much better. This time it was some of the Min-Aqua Bats who came out on the bottom.

Fred Samples and Allen Eubolz were busy convincing all the councilmen and judges to Joe's to hang their buckets. At one point when a meeting was called they reportedly asked for room service to their motel meeting room.

By the end of the season the smoke had cleared and the battle scars were in evidence everywhere. Half the club was on crutches or covered from head to toe with tape. The other half were walking around in a daze with an ice pack on their heads. All agreed that it was worth it. Lots of new friends were made and we kept all the breweries, distilleries, Johnson and Johnson, crutch manufacturers and related industry working night and day. Thus we did our bit to increase the gross national product and reduce unemployment.

April 2 - The Board of Directors of the Water Bugs met to discuss the coming season. The show director reported that this year instead of a show for their picnic, the Mequon-Thiensville American Legion would like us to put on a tournament. Six drinks and some votes later, it was decided officially to attempt to produce an open tournament. Co-chairmen were appointed, the date was set and we were one rung off the ground.

April 21 - We received sanction forms from "Uncle" Fred Samples. The forms were studied and it was obvious that a great deal of work had to be done. We needed a Chief Judge and Associates, tow boats and pickup boats, boat drivers, a chief scorer, a mailing list of A. W. S. A. members and this is only the beginning of a very LONG list.

May 13 - Things were looking rather bleak. Then we received the most elating news; Don Novin had accepted the position as Chief Judge. How could we be so fortunate as to acquire so capable a person as Don? Looks like we could have a decent tournament yet.

May 18-19 - Some of us left Milwaukee for Appleton at 5 P.M. May 18th to see "Uncle" Fred about a few tournament problems. As usual, Fred was so congenial that we didn't care to leave. Early in the morning, though, we finally escaped. On the way home we became lost on a detour, stopped in West Bend, asked a patrolman in what direction we were headed, and proceeded on our way. Later that day, two detectives came to the driver's home to inquire what we were doing in West Bend at 4:30 A.M.. There had been a \$ 3,700.00 jewel robbery that night. I guess we didn't present a very good front to the officer we talked to. MOTTO: "Never talk to the cops early in the morning after an evening with Uncle Fred."

June 13 - The thought entered our minds that as long as we are going to build a brand new jumping ramp why not build the very best one in the state. We heard that the Aqua Foxes had a fairly good one so we went to Appleton to see how Uncle Fred and his gang had put theirs together. On the way home we decided we could at least build the second best ramp. You just can't do better than those Aqua Foxes; their ramp you'll have to see.

June 20-21 - Construction was begun on the starting deck, jumping ramp, meter tables, etc. We had aspirations of nearly completing this work in two days. Need we elaborate on the actual results?

August 2 - It's about time to get the slalom course in. Shouldn't be any problem getting this done in one day, should it? Some people never learn!!!!

August 6 - Received our first entry form. Guess from whom? Yup, Bruce Novin. Just can't keep that boy out of first place.

August 16 - Received our 33rd entry. You're right, it's Tom Beech. This fellow deserves watching. According to his skiers information sheet he has quite a record of first places; for example, three thousand overall points at the "Tom Beech" Invitational. (He didn't invite anyone else to enter.)

August 22 - The weather on this day deserves a few words but we wouldn't dare use them here. We're now in competition with the Badger Open for bad weather. The word from Tom Beech is, "If more Min-Aqua Bats had come down for this tournament we would have had snow." We shouldn't complain though, since we could have had the tornado which tore through Fort Washington on the same day only 15 miles away.

August 22 (evening) - During the evening ski show a river monster emerged from the water flinging weeds at the crowd. After it dumped the remainder of the weeds on Jim Falkowski we discovered that it wasn't a monster after all, it was only Tom Beach. After the evening dinner the gang joined in on a hootenany led by Dave Kroll, Dr. Bill Crowley, and Tom Beach.

August 23 - After all the scores were tallied the majority of the skiers had left so we were unable to give full recognition for the exceptional performances of the following people:

Bruce Nevin for a clean sweep in the boy's division (3,000 overall points, masters performances in all three events, and 40½ bouys in slalom - 4½ bouys with 24' off)

Judi Gagar for a clean sweep in the women's division.

James Parker for a jump of 113 ft. in the men's division.

Bill Anderson for a 2330 pt. trick run in the men's division.

Bill Bilbie for 35 bouys (5 bouys with 18' off) a masters performance in men's slalom.

Ray Huber for a master's performance in men's slalom.

Dr. Jean Paul Jacobi and Wally Braun for masters performances in Sr. Men's Jumping.

Carol Gora for masters performances in both slalom and jumping in the girl's division.

Lillian Jacobi for masters performances in both tricks and jumping in the Sr. Women's division.

Afterthoughts - Thanks should be given to our chief judge, Don Nevin for helping us produce a tournament that ran from beginning to end with no exceptions to the rules. Thanks should also be given to the Water Bugs for their time and devoted efforts to make this tournament a success. Its success, without question, also depended upon those who entered and competed. Each and every entrant contributed something. Such contributions as the congeniality of Dr. Jean Paul and Lillian Jacobi and the smile of little Carol Gora shall be remembered for a long time to come. We shall also remember the efforts put forth by a few non-competitors in various capacities behind the scenes, eg., Rick Anderson, John Stapan and Beverly Sowatzke on scoring. Looking back, it was a tremendous amount of work and even a little heartbreaking at times but the rewards and pleasures must far over balance the scales for when tournament time comes again next year we'll be working on another one.

September 17 - The Water Bugs are quit proud of recent performances of two of its members. Neil Weber, only one month after his first step off, placed second against 38 opponents in the Manitowish Waters barefoot tournament August 29th and 30th. Dick Scott began jumping about August 1st. At the Water Bugs Open, his first tournament, he jumped 87 and 89 ft. Although faced with a great deal of skepticism from others Dick was optimistic enough to believe he could make the Century Club before the end of the '64 season. At the "500" Open, September 19th and 20th Dick jumped 99 and 101 ft. This was rather mild though, compared to his 115 ft. jump in practice the day before.

The pictures on the cover were taken by the Wisconsin Rapids Daily Tribune, Wisconsin Rapids, Wisconsin at the '64 state tournament.

LEGISLATION QUESTIONNAIRE

To your knowledge, has any restrictive local laws been proposed in your area in the past 18 months?

Do you have waters in your area that are causing conflict of usage?
Please specify _____

Have you or your club tried to lessen this conflict of usage?
Please specify _____

What law enforcement agency has jurisdiction on the lakes in your area?

Are there organized water patrols? Specify what days and hours and by what agency or group _____

Are you in favor of local control of waters? _____

Why _____

Would you agree to a restriction of hours for water skiers? _____

If yes, what hours would you recommend?

_____ 10 a.m. - 6 p.m. _____ 10 a.m. - 1/2 hr. before sunset
_____ 12 a.m. - 1/2 hr. before sunset _____ 8 a.m. - 1/2 before sunset
_____ other - specify _____

How can the WWSF help you in statewide legislation?

How can the WWSF help you in local laws _____

Are you willing to serve on the legislation committee of WWSF? _____
